

Conservation, Food & Health Foundation New Process

GMA Foundations

Question Group

Project Name*

Name of Project.

Character Limit: 100

Foundation Guidelines

IMPORTANTE:

- Las solicitudes deben estar escritas en inglés.
- Requerimento deve ser submetido em inglês.
- Les candidatures doivent être rédigées en anglais.

I read the funding guidelines presented on the Foundation's website (here) and verify that this project follows the guidelines and does not fall under the exclusions listed.

Resource: **What the Foundation Does Not Fund**

Choices

Yes

Organizational Budget*

What is your organization's projected annual budget for the year?

The foundation does not make grants that exceed 25% of an organization's total operating budget.

Do not submit an application seeking otherwise.

It also rarely funds start-up or new organizations with limited accomplishments.

Character Limit: 20

Grant Request*

How many U.S. dollars do you seek from the foundation?

Character Limit: 20

Project Budget*

How much will your project cost for one year?

Character Limit: 20

Budget Summary*

What are the main budget items this grant will help pay for?

List the major line items in your budget.

Do not describe the project here.

A short list of the large line items work best here!

Do not write sentences or itemize every expense.

Character Limit: 1000

Total Funds Raised or Pledged*

How many dollars do you already have in hand to support the project, and how many dollars have been pledged or committed by other donors at the time you submit the application? Please enter the total dollar amount. If you have no money raised to support the project enter a zero.

Character Limit: 20

Grant Period*

When will this work begin and end in terms of this particular grant?

Character Limit: 250

Organization Type

What type of organization are you?

(Do not apply if you are a government department or a for-profit business.)

Choices

A non-governmental (NGO) or nonprofit organization

A registered charity or public trust in your country

A school, college, university, academic or other research institution

Organization Overview*

What does your organization do? What are its most recent accomplishments related to the proposed project?

Character Limit: 1000

Problem Summary*

What problem or opportunity will your project help address?

Research or inquiry-focused projects should include a hypothesis to test or set of questions to answer.

Projects focused on **policy advocacy** should clearly outline both short-term and long-term policy and advocacy objectives.

Program-focused projects without a research or advocacy component are not a priority.

Character Limit: 1000

Project Overview, Activities & Anticipated Results*

What are the key activities of your research and/or advocacy plan?

What will be your indicators of success?

Many, but not all, outcome indicators are best expressed using **numbers**.

Help us understand the scope, scale, or size of the project by using numbers, rates, ratios, or percentages.

For projects involving training or education, tell us how many people are getting trained and how many days or hours of training they will receive.

Character Limit: 3200

Project Impact Beyond the Local Community*

What are the broader impacts, significance, or relevance of your research or policy advocacy campaign to other people in the world?

How might the findings of this research or policy wins help other communities?

(Requests that do not have the potential to shift policies, practices, systems, thinking, or the way we approach problem-solving in other communities are not a priority.)

Please note that AI generated responses to this question are not convincing and counterproductive. AI is not very smart.

Character Limit: 1000

Project Collaborators*

What are the names of the other organizations that will be involved in this project, and what will they do?

Character Limit: 1000

Project Leaders*

What are the names and roles of your key team members that will lead this project, and how are they qualified to do so?

Highlight if the project will help support the development of early-career professionals in the fields of sciences or public health.
